

PROJECT:

CONVEYOR EMERGENCY DEMOLITION

INDUSTRY:

Agricultural Commodity

PROJECT TYPE:

Millwright (MIST)

PROJECT OVERVIEW:

At the Port of Portland, Terminal 5's existing conveyor system walkway was in need of emergency repair. Omega Morgan's Portland millwright crew got into action and shored up the high traffic areas of the dock, performed extensive cleanup, and removed eight 95-foot, 130,000-pound concrete girders and seven EA concrete support bents. The work was completed three weeks ahead of schedule, safely, and with zero incidents.

EQUIPMENT USED:

DB Beaver, DB Sea Horse (Hickey Marine), 60' manlift, 40' manlift, 12K reach lift (x2), 5K reach lift
