

INDUSTRY:

Electric

PROJECT TYPE:

Specialized Transportation

PROJECT OVERVIEW:

Omega Morgan and IRH completed a large-scale transportation project for the electric industry in Wyoming. The project involved moving seven 670,000-pound transformers from Laramie to Medicine Bow, WY. Using a 500-ton suspension trailer, hydraulic platform trailers, and a jack and slide system, the team delivered superior results.

EQUIPMENT USED:

500-ton suspension trailer, hydraulic platform trailer, jack and slide

PROJECT:

HEAVY EQUIPMENT HAULING ACROSS WYOMING
