

INDUSTRY:

Specialized Transportation

PROJECT TYPE:

Specialized Transportation

PROJECT OVERVIEW:

Omega Morgan's Portland specialized transportation division moved a 315,500-pound transformer using a 160-ton dual-lane trailer from Tacoma, WA to Portland, OR. Despite size and weight challenges, the team successfully completed the project by providing innovative transportation solutions and by working cohesively with government and local agencies.

EQUIPMENT USED:

Kenworth C500, 12 dolly 160-ton dual-lane trailer, Kenworth T800, 550-ton hydraulic crane, Jack and Slide system

PROJECT:

MOVING A 315,500-POUND TRANSFORMER
