

INDUSTRY:
Cellular Communications

PROJECT TYPE:
Crane Services

PROJECT OVERVIEW:
As part of a cellular communications upgrade, the tower on Washington's Green Mountain was ready for antenna replacement. Our customer needed crane service support to remove and replace the three 1,500-pound sectors at the top of the 200-foot pole. Enter Omega Morgan's Seattle heavy lift team with a world-class solution.

EQUIPMENT USED:
Grove GMK 6300L-1 350-ton All Terrain Crane

PROJECT:

REPLACING CELLULAR ANTENNA SECTORS
