

INDUSTRY:

Transportation/Infrastructure

PROJECT TYPE:

Crane Services

PROJECT OVERVIEW:

Since Washington State began working to improve the fish passageways throughout the state, many structures have been elevated or changed to adhere to new standards, including a roadway in Kent, WA. In one evening, Omega Morgan provided essential crane services to lift and place nine 63,200-pound bridge girders as part of phase one of this project.

EQUIPMENT USED:

Tadano AC5.160-1 180-ton and
Tadano AC4.110-1 120-ton

PROJECT:

CRANE SERVICES HELP ELEVATE THOROUGHFARE
