

INDUSTRY:

Crane

PROJECT TYPE:

Crane Services

PROJECT OVERVIEW:

Omega Morgan's Seattle crane division delicately removed two 50-foot totem poles from a park in Seattle, allowing roof construction on a parking garage below to proceed. This project required flexibility and extensive safety precautions to ensure the 40-year-old poles were removed safely. The crew successfully completed the project, allowing important city improvements to move forward.

EQUIPMENT USED:

Tadano AC 4.110-1 all-terrain crane with 120-ton maximum capacity

PROJECT:

REMOVING TOTEM POLES FROM SEATTLE PARK
