

INDUSTRY:

Power

PROJECT TYPE:

Specialized Transportation

PROJECT OVERVIEW:

Omega Morgan's specialized transportation team provided an innovative solution, performing a "bridge jump" to bypass a bridge that could not support the weight of the 179,000-pound transformer they were transporting. In a display of engineering excellence, they constructed a temporary bridge and successfully completed this project for the power industry.

EQUIPMENT USED:

6-line SPMT trailer, 2 reach forklifts

PROJECT:

JUMPING A BRIDGE TO TRANSPORT A TRANSFORMER
